EXPERTS IN INSURANCE LEADS

How Our Lead Program Works

1

InsuranceLeads operates a network of websites that helps consumers assemble competitive quotes from insurance agents.

2

Consumers find our sites while searching for insurance-shopping terms on portals like Google and Bing, or by clicking ads on many of the web's most popular sites.

3

Once at the website, consumers fill out a detailed quote request form that is specific to the type of insurance they're interested in buying.

4

Our advanced technology distributes leads based on agent-created profiles - including geography, lifestyle filters and daily/weekly lead maximums.

5

Agents get an excellent value: we offer one of the lowest shared lead caps in the industry.

Agents can often reach consumers while they're still sitting at the computer! Receive leads by email, text message, or both. We're also compatible with many CRM and comparative rater systems.
